Professional Summary

As a graduate in Computer Science, I am eager to begin my career in software development. Proficient in Java, Python, JavaScript, HTML, CSS, React, and Node.js. With a solid foundation in software engineering principles, I am ready to contribute to projects and further expand my skill set. Seeking opportunities to collaborate with talented teams and make impactful contributions in the field.

Education

Aditya college of engineering

I have successfully completed my *B.Tech in Computer Science and Engineering (AI & ML)* from *Aditya College of Engineering* with a *CGPA of 7.49*. Throughout my academic journey, I have gained strong technical skills in programming, web development, and problem-solving. I have worked on various projects related to *full-stack development*, improving my ability to design and develop web applications.

2020 – 2024

surampalem, east godavari

Projects

Portfolio Website

- Designed and developed a **responsive personal portfolio** using **HTML, CSS, Bootstrap, and JavaScript**.
- Showcases skills, projects, and contact details in an interactive layout.

AI-Powered Image Recognition System

- Developed an AI-based image recognition system using TensorFlow and Flask to classify objects in uploaded images with real-time predictions.
- Built a React frontend with a REST API for seamless communication, enabling users to upload images and receive classification results instantly.

To-Do List Web App

- Built a task management web app using **HTML, CSS, and JavaScript**.
- Implemented local storage to retain user tasks even after closing the browser.

Skills

Technical Skills: Proficient in Java, Python, JavaScript, HTML, CSS, Bootstrap, React.js, SQL, Git, and GitHub.

Certifications

- Full Stack Java Internship - SkillDzire APSCHE** Successfully completed a 240-hour long-term internship on Full Stack Java Development, organized by SkillDzire in collaboration with Andhra Pradesh State Council of Higher Education (APSCHE) and approved by AICTE. The internship provided hands-on experience in Java, Spring Boot, MySQL, and front-end technologies.
- Front-End Technologies - EPAM Systems** Successfully completed the EPAM Center of Excellence (COE) Program on Front-End Technologies, covering HTML5, CSS3, JavaScript, Advanced JavaScript, TypeScript, Angular, React, and Node.js. The course was conducted from October 2022 to February 2023.
